---

## Full Stack Developer

Motivated Full Stack Developer with a strong commitment to continuous learning and rapid skill growth, eager to contribute to impactful projects and build a solid, long-term career in software development.

## WORK EXPERIENCE

---

### Green Rent (Startup) • 05/2024 - Present

#### Software Developer (Full Stack - React / React Native / Node.js)

- Developed and launched a cross-platform mobile app using React Native with a Node.js + TypeScript backend.
- Optimized frontend and backend performance, improving speed, responsiveness, and data handling.
- Integrated multi-cloud solutions: AWS S3 for media storage and Google Cloud Coldline for rare backups.
- Enhanced database features with PostgreSQL, MongoDB, and Redis to support GPS and telemetry data.
- Collaborated on CI/CD workflows and applied clean architecture principles for scalable development.
- Contributed to deployments on Google Play & App Store .

## EDUCATION

---

### Master's degree in cyber security

Faculty of Computer Science, Gheorghe Asachi Technical University of Iasi • Iasi • 01/2023 - Present

### Bachelor's degree in computer science

Faculty of Computer Science, Alexandru Ioan Cuza University of Iasi • Iasi • 01/2020 - 01/2023

## PROJECTS

---

### Bachelor's Thesis: Time and Access Management System

- Java 11, JavaCard, JavaFX, PL/SQL, Oracle DataBase
- In my bachelor's thesis, I have decided to implement a time attendance and access control system for different areas within a company. This system is based on smart cards and aims to showcase the advantages of using smart cards in organized environments. More details about the application can be found on its GitHub page.

### Twitter API

- Java 17, Spring Boot 3, PostgreSQL
- In the FiiPractic 2024 project, within the Java Enterprise Applications with Spring course organized by Cognizant, I implemented a REST API aiming to cover several functionalities akin to those of the former Twitter (such as posting, commenting on posts, sharing posts, mentions, etc.). More details about the application can be found on its GitHub page.

## SKILLS

---

**SOFT SKILLS:** Communication, Flexibility, Friendly, Teamwork

**TEHNICAL SKILLS:** AWS (S3), C/C++, CI/CD, Expo, Express.js, Google Cloud (Coldline), Java, MongoDB, Node.js, Object-Oriented Programming (OOP), PostgreSQL, Python, React, React Native, Redis, REST APIs, Spring Framework, TypeScript

**LANGUAGE:** English Intermediate (B1)
